

Invertor + battery specification

Inverter/charger Specification (Qty=1)

Output power: 2400W

AC connection: 220V/50Hz

Output voltage: 220V+/- 5%; 50+/- 1Hz

Output wave form: true sine wave

AC auto-transfer time less than 20ms

DC voltage output for battery charging

Battery Specifications: (Qty=4)

Type: GEL, Heavy duty, deep cycle

Voltage: 12V

20hr discharge rate : 150A

Operating temperature: 15 to 40%
